Chancellor's Message

Dr. J. Ramachandran
Founder President

Eliot said: "He will teach that the good which men do lives after them, fructified and multiplied beyond all power of measurement or computation. He will teach that from the seed which he planted....have sprung joy, strength and energy ever fresh, blooming year after year in this garden of learning and flourishing...as time goes on, in all fields of human activity."

Institutions embody our present and enduring connections to one another. They bring our disparate talents and capacities to the pursuit of common purpose. At the same time, they link us to both what has come before and what will follow. They are repositories of values-values that precede, transcend and outlast the self. They challenge us to look beyond the immediate, the instantly gratifying, to think about the bigger picture, the longer run, the larger whole. They remind us that the world is only temporarily ours, that we are stewards entrusted with the past and responsible to the future. We are larger than ourselves and our selves.

That responsibility is quintessentially the work of Universities—calling upon our shared human heritage to invent a new future—the future that will be created by the hundreds of graduates who leave the campus every year. Our work is about that ongoing commitment—not to a single individual or even one generation or one era—but to a larger world and to the service of the age that is waiting before it.

FROM THE VICE-CHANCELLOR'S DESK

Dear colleagues and students,

I am immensely pleased to note that the AMET University is to afloat yet another issue of AMET Waves, a prestigious publication of the University bringing the reminiscence of glorious events taken place in the campus during the last six months. One would concur with me that a publication of this kind of an institution like ours' would always form as a source of information for the future reference and cherishment.

The information along with photographs divulged in this publication would reveal to show the amount of interest and efforts that our Management has taken for making the possibility of presence of galaxy of celebrities, national and international, to the different functions of the University.

AMET conducts 11th Annual Convocation

The Academy of Maritime Education and Training (AMET), Deemed to be University for Maritime Education, established in India in 2007, conducted its 11th Annual Convocation on 24th January 2022 in a Blended Mode, due to the prevailing COVID-19 pandemic.

Col Dr G Thiruvassagam, the Vice-Chancellor of the University introduced the Chief Guest, the Special Invitee, and other dignitaries including the managing Trustees and members of the Board of Management. He also welcomed the participants and presented the Annual Report in which he stated some of the most noteworthy outcomes.

The University was accredited with A Grade with a CGPA of 3.13 by the National Assessment and Accreditation Council (NAAC) which is valid for five years, two Engineering and one Management programme of the University was accredited by the National Board

PIMET Ranking of International Association of Maritime Universities (IAMU), Japan for the past four consecutive terms, it has been ranked within 200-250 rank Band in the NIRF-Ranking 2020, categorized as a 'Band B' Institution (rank between 26-50) in the category of 'University & Deemed to be University (Private-Self-Financed)' in Atal Ranking of Institutions on Innovation Achievement (ARIIA) 2020 besides several other laurels.

Another major achievement was that for the first time in the World, as an innovation in the Global Maritime Education, AMET established an AP Moller Maersk – AMET Centre of Excellence by signing a Memorandum of Understanding with AP Moller Maersk, Denmark (the world's biggest container shipping line). Every year, 160 students each in Marine Engineering, Navigation and Electrical Sectors will be selected and sponsored by AP Moller Maersk.

Country's first female maritime pilot, the pride of Chennai

M Rafi Ahmed

Nothing is impossible to those, who have the dauntless spirit and course to swim against all odds. Breaking the glass ceiling, Reshma Nilofer became the country's first and only female maritime pilot by making heads turn for her feat in a male dominated domain. And she brought glory to Chennai and her alma mater AMET University.

A recipient of Nari Shakti Puraskar honour for being the first woman river pilot to traverse the rough seas amidst bad weather conditions, Nilofer kept her maritime career sailing facing the challenges. Come what may. Presently, she works at the Kolkata Port Trust and was honoured with the women's achievers

award by Chennai based Raindropss Charity Foundation at a glittering event yesterday.

As a former resident of Anna Nagar, Reshma grew up in Chennai where her parents were central government employees and graduated from AMET University at Kanathur on the outskirts of the city. Putting up a brave face, she took maritime course with confidence and came out colourful thereby achieving what she aspired to be in her chosen domain. Interestingly, Reshma piloted many vessels including the Navy, Coastguard, Merchant Navy and bulk carriers while she navigated her maiden vessel-- ICGS Rajkiran during her training schedule. Infact, seafaring became close to her heart despite the job

not being a bed of roses for her. The true beauty of a woman can be observed when she has spent the day in the seas. Truly, Reshma Nilofer has shown the way for other women

to scale new heights in their line of interest more so in areas where female members have hardly touched. Rightly American singer and lyricist Stevie Nicks has said---Don't be a lady, be a legend.

Thirukkural - 35

'Tis virtue when, his footsteps sliding not through envy, wrath, Lust, evil speech--these four, man onwards moves in ordered path.

That conduct is virtue which is free from these four things, viz, malice, desire, anger and bitter speech.

Scholarship Distribution Ceremony for the Students of Fishermen Community

AMET – Academy of Maritime Education and Training, Deemed to be University, Chennai, conducted “Scholarship Distribution Ceremony for the Fishermen Community Students” on 12th May 2022. Dr. J. Ramachandran, Founder and Chancellor of AMET University presided over the function. Mr. Anitha R. Radhakrishnan, Minister for Fisheries, Fishermen Welfare and Animal Husbandry, Government of Tamil Nadu, participated as the Chief Guest and distributed the special scholarship worth Rs. 60 lakhs to the 167 AMET students belonging to fishermen community.

The Minister Mr. Anitha R. Radhakrishnan along with the Chancellor, VC and the Registrar of AMET

The Chancellor, Dr. J. Ramachandran in his presidential address explained the importance of encouraging fishermen community in Maritime sector. He also said that this scholarship could help the students of fishermen family to complete their studies comfortably and serve in the marine industry as Captains and Chief Engineers. The Minister, Mr. Anitha R. Radhakrishnan in his address appreciated the chancellor, Dr. J. Ramachandran for this scholarship initiative considering the welfare of fishermen community students. He stated that a fisherman making his son as Captain or Chief Engineer of a ship is a proud moment that must be applauded. He also said that the Tamil Nadu Government is implementing many welfare schemes to the benefit of fishermen community and these types of scholarships by the academic institutions would be a great help for them to come up in their life.

International Coastal Cleanup & World Environmental Day

Date & Time : 03.06.2022 (06 : 00 AM to 11 : 30 AM)

Place: Besant Nagar Beach, Chennai.

The Department of Marine Engineering, AMET organized "International Coastal Cleanup & World Environmental Day" on 03.06.2022 from 06:00 AM to 11:30 PM at Besant Nagar, Chennai. Around 40 cadet participants including two faculty members of AMET have attended the events. Beach cleanups are volunteer activities that take place on a regular basis along coastlines around the world. Environmental groups, civic organizations and individual beachgoers collect beach trash to make the beach a nicer, safer place and also to improve the coastal and ocean ecosystem.

AMET University Marine department has been organizing and conducting beach cleanups on a regular basis for over a few years. The cleanups have two goals - 1) a clean beach and 2) changing human behavior and creating a "beach ethic" so that beach cleanups eventually become unnecessary. Materials collected at these cleanups range from a distressing number of cigarette butts and small pieces of plastic to plastic bottles and bags to fishing nets. We attempt to separate recyclable material from trash and we also encourage participants to bring their own bags, buckets and gloves to make the environment as "green" as possible.

Thirukkural - 12

The rain makes pleasant food for eaters rise;
As food itself, thirst-quenching draught supplies
Rain produces good food, and is itself food.

✧ Our marine cadets collected plastics and other waste products in Besant Nagar Beach ✧

✧ Beach Clean-up in Chennai Besant Nagar Beach ✧

Beach cleaning or clean-up is the process of removing solid litter, dense chemicals, and organic debris deposited on a beach or coastline by the tide, local visitors or tourists. Humans pollute beaches with materials such as plastic bottles and bags, plastic straws, fishing gear, cigarette filters, six pack rings, surgical mask and many other items that often lead to environmental degradation. Every year hundreds of thousands of volunteers comb beaches and coastlines around the world to clean this debris. These materials are also called “marine debris” or “marine pollution” and their quantity has been increasing due to anthropocentric activities. There are some major sources of beach debris such as beach users, oceans, sea drifts, and river flow. Many beach users leave their litter behind on the beaches after activities. In addition, marine debris or chemicals such as raw oil drift from oceans or seas and accumulate on beaches. Additionally, many rivers bring some cities’ trashes to beaches. These pollutants harm marine life and ecology, human health, and coastal tourism. Hartley study shows that environmental education is important to eliminate many beach pollutants on beaches and the marine environment. At the end of the program, the marine cadets were more aware of future in beach cleaning and Awareness of cancer due to plastics.

International Day for Biological Diversity

The Department of Marine Engineering of Academy of Maritime Education and Training, deemed to be University has organized an Outreach program “Tree Plantation-Building a Shared Future for all Life” on the commemorative day-“International day for Bio-Diversity on 23.05.2022 at 10:00 AM in NIEPMD (National Institute for Empowerment of Persons with Multiple Disabilities) Muttukaadu. The International Day for Biological Diversity is celebrated each year on May 22, aims to increase understanding and awareness of biodiversity issues. Although it was originally celebrated in late December, the UN General Assembly later decided to move the date to 22 May, which commemorates the adoption of the Convention on Biological Diversity (CBD) in 1992.

Marine Engineering students participated in the outreach program International Day for Bio Diversity

Biodiversity is the living fabric of our planet. It underpins human well-being in the present and in the future, and its rapid decline threatens nature and people alike. The ultimate objective of conducting this program on this commemorative day is to motivate our cadets to know the importance of Tree plantations in this world. Tree planting is recognized as one of the most engaging, environmentally-friendly activities that people can participate. Trees provide numerous long-term and short-term benefits. They not only look nice, but they also remove and store carbon from the atmosphere, slow, heavy rain and thus reduce the risk of flooding, improve air quality, and reduce the urban heat island effect by reflecting sunlight and providing shade.

ANVESHAN 2021-22

“Anveshan 2021-22 : Student Research Convention” was hosted by AMET University, Chennai jointly with Association of Indian Universities (AIU), New Delhi on 27-28th March, 2022 at Shri Janaki Raman Auditorium, AMET University.

About the Association of Indian Universities (AIU)

Association of Indian Universities (AIU) has a legacy of more than 97 years. It was started as an Inter-University Board (IUB) of India on March 23, 1925 and renamed as Association of Indian Universities (AIU) in 1973. Since its inception, AIU has been actively engaged in the growth and development of Higher Education in India. The membership of AIU includes all types of universities e.g. Conventional Universities, Open Universities, Deemed to be Universities, State Universities, Central Universities, Private Universities and Institutes of National Importance. In addition to Indian Universities, Universities/ Institutes from Bangladesh, Bhutan, Republic of Kazakhstan, Malaysia, Mauritius, Nepal, Thailand, United Arab Emirates and the United Kingdom are its Associate Members. Association of Indian Universities (AIU) is working towards imbining the National Spirit among the academic fraternity especially the students. AIU is organizing various programmes and implementing diverse schemes to promote overall quality and standards in the higher education system of India by means of promotion of research, collaboration and integration among the Universities in India. The Student Research conventions were held in three phases i.e. University Level, Zonal Level and National Level. They cover 5 fields i.e. (1) Agriculture, (2) Basic Sciences, (3) Engineering & Technology, (4) Health Sciences & Allied Subjects and (5) Social Sciences, Humanities, Commerce and Law.

Thirukkural - 15

Rain by its absence ruins men; and by its existence restores them to fortune.

✧ **Mr. M Mahesh Kumar, Deputy Mayor, Greater Chennai Corporation.** ✧

It was a proud moment for AMET University to host the National Level Convention jointly with Association of Indian Universities, New Delhi. The mega event had participation of about 105 best individual or group projects from 5 zones i.e. East, West, North, South and Central (15 best projects from each zone covering 3 best projects from each of aforementioned fields). More than 42 educational universities are participated in the event from the different parts of the states.

✧ **Dr. J. Ramachandran, Chancellor of AMET University inaugurated and delivered his address** ✧

During the convention, the projects were presented in the form of live demonstration/ models/ posters/ podium (oral) presentations from aforementioned fields. Assessments of projects were done in 3 rounds i.e. poster presentation in first round, podium presentation (Oral) in second round and in the third round, presentation will be open for Question-Answer.

Thirukkural - 16

If from the clouds no drops of rain are shed. 'Tis rare to see green herb lift up its head.

If no drop falls from the clouds, not even the green blade of grass will be seen.

Assessment of the projects were based on various criteria i.e. Scientific Thoughts and Principles (20%), Creativity (20%), Relevance (20%), Scalability (10%), Skill (10%), Cost Effectiveness (10%) and Teamwork (10%). Out of 105 projects displayed for assessment at the National Level Convention, 15 projects were selected for awards by a panel of experts. Winners were awarded Cash Prizes for first position holder, second position holder and third position holder along with Certificates and Mementoes. In addition to this, the two Best Projects from each zone was also awarded.

❖ Dr. (Mrs.) Pankaj Mittal, Secretary General, AIU rendered her special address ❖

Enhancing Knowledge Development Vedic Mathematics for School Children

Vedic Mathematics is the mental mathematics which was practiced by Indians 2000 years ago. This was rediscovered from Vedas recently at 19th century. It was discovered by an Indian mathematician, Jagadguru Shri Bharathi Krishna Tirthaji during A.D. 1911 and 1918. He printed his findings in a Vedic Mathematics book – Tirthaji Maharaj. The techniques followed to solve the arithmetic operations are easy and fast. By using regular mathematics methods, solving problems are complex and time consuming. But using Vedic general techniques, the calculations can be done very fast as well as at ease. Also these techniques are applicable to all sets of data. We can say that the brain's capacity and its speed of calculations increases fivefold with the practice of Vedic maths. A brief introduction about Vedic mathematics was given. First, the students were asked to solve some numerical problems in their own way. Then the Vedic techniques (like ten point circle, halving, doubling, near to base) were taught to sum, subtract, multiply and divide the numbers.

Thirukkural - 17

If clouds restrain their gifts and grant no rain, The treasures fail in ocean's wide domain.

Even the wealth of the wide sea will be diminished, if the cloud that has drawn (its waters) up gives them not back again (in rain).

The students answered the questions after understanding this methods fast. They were questioned continuously and their responses were speechless. They were very eager to learn this and tried to practice more sums. This really helped the students to enhance their mental ability towards numerical calculations. The students benefited much and this event made them to improve their mental calculations. AMET cadets were involved to assist in this activity and to persuade cadets' interest towards such social activities. The cadets did some fun activities to the school students which was enjoyed by them.

BLUE CAMPUS ACTIVITY: WORLD WATER DAY

The Department of Food Processing Technology organized an extension activity on blue campus activity – World water day on 22.03.2022 at GOVERNMENT HIGHER SECONDARY SCHOOL, SHOLINGANALLUR. World Water Day is observed on the 22nd of March every year. The main aim of World Water Day is to educate the importance of water to the whole world. Also, it mainly focuses on reducing the wastage of water. Moreover, World Water Day is used to highlight the necessary improvement for access to water, hygiene facilities, and sanitation in all the countries.

Highlights of the program

- Groundwater is invisible, but its impact is visible everywhere.
- Out of sight, under our feet, groundwater is a hidden treasure that enriches our lives

Thirukkural - 20

When water fails, functions of nature cease, you say;
Thus when rain fails, no men can walk in 'duty's ordered way'.

If it be said that the duties of life cannot be discharged by any person
without water, so without rain there cannot be the flowing of water.

- ❖ Almost all of the liquid freshwater in the world is groundwater.
- ❖ As climate change gets worse, groundwater will become more and more critical.
- ❖ We need to work together to sustainably manage this precious resource.
- ❖ Groundwater may be out of sight, but it must not be out of mind.

Jaisankar, Head of the Department of English welcomed the gathering and established the context and the significance behind commemorating the Sparrow day globally. Dr. Muthezhilan the guest of honor recommended the need for compelling consciousness among technical students towards conserving the environment. He also foregrounded on how as engineers in future they need to consider ecology when technical machineries and tools are created by them. Furthermore, he deliberated on the misuse of nature that results in the destruction and endangerment of species in recent years.

Thirukkural - 101

Assistance given by those who ne'er received our aid, Is debt by gift of heaven and earth but poorly paid.

(The gift of) heaven and earth is not an equivalent for a benefit which is conferred where none had been received.

Video clippings emphasizing the conservation of Sparrow was screened to the students. More than fifty students from the department of Naval architecture and Mechanical Engineering took part in the event. Dr. S. Krishna Assistant Professor Department of English, the coordinator of the event delivered the vote of thanks.

Human callousness towards flora and fauna and other species have become an order of the day. Everyday conservationist and naturalists are grappling with endless environmental issues and constantly call for awareness on these. Academic curriculum too are framed to enlighten students on these factors. Events of this kind prove to be a nice gesture and a good platform to sensitize students on conservation of ecology and man's accountability in protecting both the species and the environment. This is an age of Anthropocene and programmes of this kind are crucial in enlightening students on environmental problems. An art competition commemorating the theme "Monitor the Sparrows and other common birds" was held on 18th and 19th March 2022 in the English Language Lab. Dr. D. Madesh, Professor Department of Mechanical Engineering was the Judge for the Competition.

Kindness shown by those who weigh not what the return may be:
When you ponder right its merit, 'Tis vaster than the sea.

If we weigh the excellence of a benefit which is conferred without
weighing the return, it is larger than the sea.

Dr. B. Thimme Gowda Vice-Chairman, Karnataka State Higher Education Council, Govt. of Karnataka, Bangalore, in his Session Addressed on Role of Leadership and Management in Higher Education listed out the highlights of NEP-2020 and need of continuous improvement in Governance and leadership.

✿ Prof. Appa Rao Podile, Former Vice-Chancellor, University of Hyderabad ✿

Prof. Appa Rao Podile Former Vice-Chancellor, University of Hyderabad - In his Session Address on Quality Research is backbone for HEI's emphasized that the research will always give an extra knowledge which will be useful whether it is immediately demanding or not and the quality research should give quality evidence.

The outcomes of the seminar are

- The HEI's education should be outcome based not on technology based. Experiential and authentic learning is essential.
- Learning beyond the text is to be encouraged.
- Team based learning should be encouraged for assignments.
- Students and faculty members should be engaged to do participative research.
- Importance of the NAAC Accreditation and its framework.
- Issues and challenges in Higher Educational Institutions in implementing NEP-2020
- The role of IQAC in post accreditation.
- The system has to be created in Higher Educational Institution for Quality enhancement.
- Need of continuous improvement in Governance and leadership.
- Institutionalization quality means teaching quality, research quality Institutional building and extension activities.
- The HEIs prepare for educational direction change like blended learning, doing the same activity in different ways, Disrupt examination system with new methodologies.
- The HEIs has to encourage multidisciplinary programme and research.

Thirukkural - 104

Each benefit to those of actions' fruit who rightly deem, Though small as millet-seed, as palm-tree vast will seem.

Though the benefit conferred be as small as a millet seed, those who know its advantage will consider it as large as a palmyra fruit.

Follow up action

- Encouraging the faculty members continuing to broaden the insights of knowledge through seminar, conference and workshops.
- Modified curriculum based on NEP-2020 by introducing minor degree programme with regular programme.
- Most of the faculty registered in NPTEL for imparting knowledge beyond the curricula.
- More number of value added programmes introduced to improve the skills.
- Adoption of modern tools in teaching and learning.
- Research infrastructure improved based on requirement.
- Established distributed leadership with responsibilities.
- Every departments following successful best practices of other Departments.

INTERNAL HACKATHON 2022 SOFTWARE AND HARDWARE EDITION

Smart India Hackathon 2022 is a nationwide initiative to provide students a platform to solve some of the pressing problems we face in our daily lives, and thus to inculcate a culture of product innovation and a mindset of problem solving.

As per guidelines and process flow for SIH 2022 prescribed by MoE's Innovation Cell. AMET CEII conducted the Internal Hackathon 2022 successfully on 22.03.2022. This event was headed by Dr. Anita R Warriar, Vice President, AMET-IIC and SPOC, SIH 2022 and Dr. V. Leela Vinodhan, Director i/c, AMET CEII & Convener, AMET-IIC. The chief guest for this event was Dr. A. Gnanamani, Sr. Principal Scientist, CLRI and our eminent jury members are Dr. Menaga Magendran, Managing Director, Bioneemtec. Pvt. Ltd. and Dr. N. Duraimutharasan, Head of the Department, Computer Science Engineering. In this hackathon 18 teams registered and out of 18 teams organizing committee members selected 14 teams for the second round as presentation in front of jury members.

The kindly aid's extent is of its worth no measure true; Its worth is as the worth of him to whom the act you do.

The benefit itself is not the measure of the benefit; the worth of those who have received it is its measure.

In that, we had 84 participants and 54 students attended the event. This hackathon created a great impact in the student's corner, especially first year students were interestedly participated and proposed their problem statement with some wonderful solution. We started the event with tamil thai vazhthu, followed by Welcome address given by Dr. Anita R Warriar, SPOC SIH 2022 & Vice President, AMET-IIC, Presidential address given by our respected and motivated leader Dr. M. Jayaprakashvel, Inaugural address given by Dr. A. Gnanamani, Chief Guest, Sr. principal Scientist, CLRI. 14 teams presented their problem statement, judges selected the top 10 teams. Our Director i/c, AMET CEIL, Dr. V. Leela Vinodhan delivered the Vote of thanks and congratulated those who got selected for the Smart India Hackathon 2022.

10 Years Mile Stone Achievement - SPE AMET Student Chapter

The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose more than 124,800 members in 134 countries are engaged in oil and gas exploration and production. SPE is a key resource for technical knowledge providing opportunities to exchange information in both offline & online events and training courses, publications, and other resources. SPE maintains offices in Dallas, London, Dubai, Kuala Lumpur, Calgary, Moscow and Houston. SPE disseminates, and exchanges technical knowledge concerning the exploration, development and production of oil and gas resources and related technologies for the public benefit; and to provide opportunities for professionals to enhance their technical and professional competence.

SPE AMET Student Chapter was incubated during March 2012 officially. Since then, AMET conducts National, International Conferences under the banner “PETRAMET”. Besides, Symposium, workshop, Guest Lectures, Alumni Lectures and Extension Activities were also done along with students and faculties affiliated to SPE AMET Student Chapter. In 2022, the AMET University Chapter has reached 10 years milestone anniversary. The society is pleased to provide chapter with an official certificate on behalf of the 2022 President, Kamel Ben-Naceur and the CEO and Executive Vice President, Mark Rubin to mark this anniversary stating that SPE applauds your chapter’s past and current officers and members for bringing your chapter to this milestone anniversary. SPE AMET Student Chapter had celebrated the milestone anniversary with Online National Symposium conducted during 25th May 2022 RHA 2022.

National Symposium in Association with SPE AMET Student Chapter

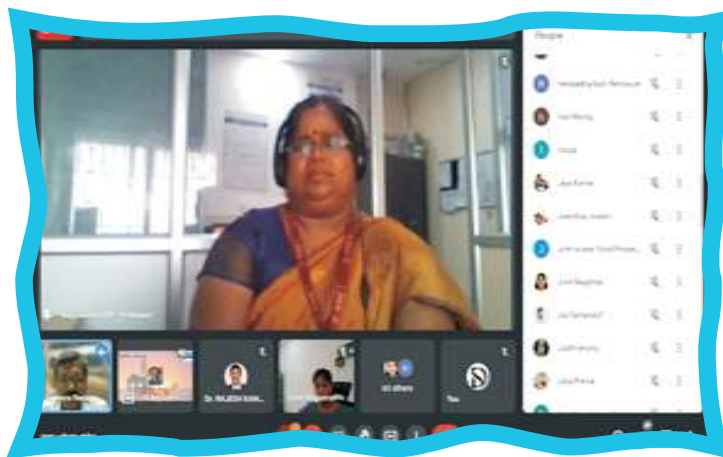

The Department of Petroleum Engineering in association with Society of Petroleum Engineers (SPE), AMET Student Chapter conducted a virtual national symposium RAHI 2022 in the theme “Recent Advancements in Hydrocarbon Industry” on 25th May 2022. Dr. T. Nagalakshmi, HOD and Convener RAHI delivered Welcome and Inaugural Address. The Presidential Address was delivered by Mrs. Sangeetha Albin, Joint Registrar, AMET. Mr. Sankaranarayana, General Manager (MKTG), ONGC and Secretary SPE Chennai Section Chairperson delivered the Chief Guest Address. Ms. Minnie Gogia, Chief General Manager (Reservoir), ONGC Retd. gave a keynote talk on “Overview of Production Testing” followed by Ms. Pallavi Chatterjee, General Manager (Reservoir), ONGC who delivered her keynote talk on “Energy Transition and Geopolitics Today”. Dr. A. Rajesh Kanna, Associate Prof, Dy. HOD, SPE AMET Student Chapter Faculty Advisor was the Organizer of RAHI 2022. He proposed the vote of thanks for the event. Dr. S. Ponmani, Assistant Professor was the Faculty Coordinator and Mr. Vignesh was the Student Coordinator of RAHI 2022 besides SPE Office Bearers. More than 70 Students, Faculties from AMET and other institutions participated. As an outcome of this symposium, students benefited with new advancements in Oil and Gas Industries, such as multi-well pad drilling, multiple fracture stages, and improved well and pipe design, and have already boosted drilling efficiencies significantly. Producers also are using fewer rigs to extract more oil and gas in less time, which keeps costs down. Besides, concepts on Zero Emission, Production and Testing sophisticated methods were discussed.

Volunteers' participation in Mega Blood Donation Camp

A blood donation camp was jointly organized by AMET LEO Club, NSS, and AMET Blood Donation Club on 13-05-2022. The Chief Guest of the camp was Dr. K Duraisamy M.D, Professor & Head, Department of Transfusion Medicine, Govt. Kilpauk Medical College & Hospital, Chennai and Dr. S. Uma M.D, Assistant Professor, Department of Transfusion Medicine Govt. Royapettah Hospital Blood Bank, Royapettah. The camp was held in Sri Janakiraman Auditorium, AMET University.

A team of doctors and nurses came for the collection of blood. About 350 students and many teaching faculty and non-teaching staff had voluntarily donated their blood. A certificate of appreciation and refreshments like juice, snacks, and boiled egg were given to each donor as a token of gratitude. Donating blood is very essential for saving the lives of many patients and those who are in need of blood. It is a great service and contribution to humanity at large.

Thirukkural - 137

'Tis source of dignity when 'true decorum' is preserved;
Who break 'decorum's' rules endure e'en censures undeserved.

From propriety of conduct men obtain greatness; from impropriety
comes insufferable disgrace.
