»»»»» ABOUT MANAGEMENT RESEARCH FORUM - AMET BUSINESS SCHOOL

The AMET Business School Research Forum, an initiative of the ABS faculty and students with the patronage of the Vice-Chancellor to inculcate research aptitude among the faculty and learners. It encourages research interest among faculty, students and exchange of scientific information among the faculty, students and public. The ultimate goal of the Research Forum has been to identify and promote strategies that protect and enhance the well-being of people. Research Forum provides an opportunity for graduate, post-graduate students and Research Scholars to present and discuss their research work.

One of the most important milestone of the research forum is, every year it organizes paper presentation completion for Arts, Science and Technology students. This Provides Platform for the students to cultivate the art of scientific paper writing. Management Research Forum also advocates the facility to take up research work including minor and major Project Works by availing funding from various agencies.

AMET Business School Vision :

To continuously upgrade the quality of our curriculum, pedagogy and research pursuits in order to achieve the status of one of the top-ranking institutions in the Maritime Management Education in the world.

AMET Business School Mission :

- ✿ To be a source of effective value based managerial talent for the sustained development of Maritime Trade, Commerce and Industry not only in India but across the Globe.
- ✿ To emerge as a Centre of Excellence in technical, managerial and leadership in maritime trade and business based industrial needs..
- ✿ To produce and disseminate world-class, cutting edge research that shapes the way organisations operate and businesses are led and managed.
- ✿ To produce world-class, socially responsible, creative leaders and entrepreneurs who think on a global scale.
- ✿ To endow students with the educational opportunity belonging to different socio-economic backgrounds.
- ✿ To engage meaningfully with maritime trade and business to create a better society.

»»»»» ABOUT THE PROGRAMME

Academic publishing has changed tremendously with the spread of open access journals and the shift to online publishing. There are now more journals for authors to publish their work in than ever before. This benefits authors by providing more avenues for publication, but also puts greater responsibility on them to avoid the serious threat of publishing in a predatory journal.

Every scholar wants to publish their work in internationally recognized journals but often fall in the trap of predatory/fake or cloned journals. Nowadays people start fooling scholars; they accept articles for publication along with authors' fees without performing promised quality checks for issues such as plagiarism or ethical approval. Predatory Journals take advantage of authors by asking them to publish for a fee without providing peer-review or editing services because predatory publishers do not follow the proper academic standards for publishing, they usually offer a quick turnaround on publishing a manuscript.

In contrast, high-quality academic journals take longer to publish articles because they go through a proper peer review and copy-editing process. Although there is now greater awareness that such journals and conferences exist and there are more resources available to help identify them, it can still be difficult for authors to distinguish predatory journals and events from reputable ones. This workshop will discuss how predatory journals are different from open access journals. We will also discuss how to spot predatory journals, and how to see if your journal is reputable. This workshop also guides you on how to select a reputable journal.

Participants : Faculty, Research Scholars, Students.

Resource Person : Dr.D.Rajasekar, Professor & Head of the Department , AMET Business School

Registration Fee: Rs 100/-
