Message from the Chancellor's Desk

It is indeed a privilege to be invited to be the Chancellor of AMET University yet again. I find my journey with AMET quite satisfying when I see the joy in the lives of the family of every student who studied here. I have envisioned that to be economically empowered, one need not wait for generations but just need to do a course that changes the course of life for generations.

When one is at AMET, one's lifetime opportunity has already been met. When the goings get tough the tough get going. Set the sail in the direction of the wind and the future. AMET is certainly generations ahead in thought and deed. The fact that AMET is the first university for Maritime Studies in India proves it.

Challenges are aplenty for both parents and students right from their choice of school to the choice of a career-oriented course. Thought process is not needed to join a rat-race; one falls into it by chance only to regret. However, choosing a course that is internationally acclaimed, technologically trouble-shooting, economically empowering, socially contributing, environmentally responsible, ethically sound, personally satisfying is rare, but AMET rears the rare, and prepares students with care as world citizens.

World's best thought leaders have been associated with AMET. Research at AMET is not for a thesis but for a solution to a problem. AMET has been effectively contributing to the niche industries like Shipping, Ship-building, Ocean Engineering, Logistics, Petroleum, IT, Food and Pharma (through bio-technology and marine-biology) apart from serious orientation to Personal Safety and Social Responsibility.

International is not a tag but it is the nature and nurture that makes it so. Having been tied up with foreign universities right from its inception, and with the presence of over five hundred students from all over the world, a history of internationally acclaimed leaders from academics and industry as former Chancellor and Members of International Board of Studies make it truly international.

Besides many an Award that adorns the cupboards, the Quality of Education at AMET is accredited by none other than organizations like Lloyd, ISO and CRISIL. A history of record placements and MOUs with every major shipping company remains a feat unbeatable.

I congratulate the Vice-Chancellor, the Directors, all the Heads of the Departments, and Faculty for their incessant progress and achievements till date. Wishing you all the best.

Dr. J. Ramachandran
Chancellor

Message from the Pro - Chancellor's Desk

My Dear Students,

I cordially welcome you to AMET. It is an honour conferred upon you to be the chosen candidate of this esteemed institution.

AMET'S inexorable strides of calibre and eminence in the field of maritime education and training with its ability to elevate the global shipping industry with the distinctive human resource has procured the unsurpassed stature of becoming a first maritime university in India. The university serves as a fountain of knowledge to impart quality higher education and training.

Education is not a filling of a hollow vessel but the ignition of a fire. AMET University illumines the knowledge of maritime aspirants through its scintillating academic excellence by well distinguished industry focused undergraduate courses, masters and doctoral programmes. Today AMET has encrypted an exalted state for itself as a manifestation of the adroit maritime academy through its ardent irrevocable academic zeal.

The vast majority of maritime aspirants who secure their credentials go on to become global maritime experts and professionals. They contribute to the development of their countries and help to frame effective policies for the maritime organization on the national and global level.

AMET has inscribed a positive impact on the lives of cadets and students because they are exposed towards different social and cultural experiences which they gain at the university are of immense value in their professional and personal lives.

This contemporary global setting offers exciting career opportunities to the best and brightest maritime professionals with specific technical, interpersonal and intrapersonal cluster of skills. The marine professionals are supposed to possess dexterous knowledge and high standard training to deliver the responsibilities entrusted to them.

Nevertheless, AMET paves the way to secure the aspirations through the university's eminent professors, visiting professors, guest lecturers, and faculty members by their facilitation of theoretical and practical teaching methods. Thus, AMET shapes and moulds the maritime aspirants to become full-fledged marine professionals.

Be the enlightenment of AMET shall sculpt your glorious future. I wish you all success in your future endeavours.

Dr. Rajesh Ramachandran
Pro Chancellor

Message from the Vice - Chancellor's Desk

Dear Ametians,

India for a longer time has been considered as a major supplier of trained human resources to the global shipping industry and known for their competency, efficiency, besides cost-effective. Though India owns just about one percent of the global shipping fleet, still provides more than six percent of the total seafarers to the World fleet, which could be evidenced by the fact that about 90,000 Indian-born seafarers are working on-board ships and proudly sailing in the international waters today.

AMET, being the pioneer Institution in India in providing maritime education and training has the credit of ensuring quality in conducting innovative and employable academic and research programmes, for the last two decades. Thus, it could attract thousands of aspiring seafarers from India and abroad to its fold to acquire adequate knowledge and to become professionally trained Mariners all these years.

The above fact could be touched upon that today more than ten thousand AMETIAN graduates are absorbed by various International Shipping Companies which would certainly pronounce the core strength of AMET. The continuing success of the AMET in propelling trained talents all over the world is made possible, largely depends on its well industry-disciplined faculty, well established infrastructure and well-defined curriculum of global standards, besides the excellent placement record at its credit.

Moreover, AMET has the principle of bringing innovation in the learning process year after year to satisfy and cope-up with the changing needs of the Shipping Industry. As such the academic year 2018-19 is going to be the year of accomplishment for AMET for yet another innovation, viz. introduction of Choice Based Credit System (CBCS), to provide Value added skill oriented programmes, Technology driven digital learning methods, besides to strive hard for getting placement for everyone. Wishing you all best of Luck

Col. Dr. G. Thiruvassagam
Vice-Chancellor

JOURNEY OF AMET UNIVERSITY

JOURNEY OF AMET UNIVERSITY, CHENNAI

India's first Maritime Deemed to be University for maritime-related education, training and research.

Overlooking the deep blue sea cradled by the Bay of Bengal and tucked in the scenic drive way of east coast road is AMET. The one and only University from India to be a member of the International Association of Maritime Universities. With quality, commitment, knowledge and excellence as its corner stones, AMET had a humble beginning in the year 1993 with just 14 cadets moulded for a career in merchant navy through a Higher National Diploma programme in marine engineering. AMET's uncompromising strides of excellence in the field of maritime education and training laced with its capacity to feed the global shipping industry with an unrivalled maritime human resource secured it the status of becoming the first Deemed to be University in India for maritime education, training, research and development activities on the 21st August 2007.

AMET had the privilege and unprecedented status of getting unveiled as a Maritime Deemed to be University from the hands of the secretary general of the International Maritime Organization, Mr.Efithimios E Mitrapoulos.

AMET serves as an ocean of knowledge for over 3000 students pursuing Programmes ranging from diploma to Doctoral programs through 4 schools and 2 intensive research and training centres for marine and marine related activities. Equipped with an excellent infrastructure for research and development, co-curricular and extracurricular activities AMET secured its compliance certificate for ISO 9001:2015 QMS standards from the prestigious and globally renowned DET NORSKE VERITAS, Norway.

The National Assessment and Accreditation Council (NAAC) an autonomous institution of the University Grants Commission has assessed AMET and accredited with B Grade during November 2015. The accreditation is an indication of standards of quality as set by the NAAC and valid for a period of five years from 16-11-2015.

Forged with a vision to secure a position of prominence among the world's maritime universities and with a mission to be the fountainhead for nurturing finest intellectual capital

base for the maritime sector – worldwide, education at AMET caters to the comprehensive development of all its students so as to make them better educated, more articulate and demanding. To that end is enabled and inculcated by modern teaching aids, well equipped workshops for practical training, marine workshop for hands on training on marine auxiliaries, Ship in Campus, well-furnished hostel, canteen facilities, indoor and outdoor games, swimming pool, medical facilities backed by an overall conducive learning environment.

For over two decades AMET is remaining as the favourite destination for campus interviews by many shipping giants such as AP MOLLER MAERSK, GOODWOOD, NYK, SONANGOL, VSHIPS, WALLEMS, SHELL, CHEVRON, STENA and so goes a list of over 100 companies. Besides positions on board, AMET Business School graduates have secured lucrative jobs in commercial shipping sectors such as chartering and ship broking. Never the less, Naval architecture, petroleum engineering, harbour engineering, marine electrical and electronics engineering graduates have successfully walked away from AMET with jobs offering sumptuous packages along with an opportunity to grow and glow in their career swiftly. Needless to say about the entrepreneurship development activities nurtured into AMET'ians has been found rewarding by students who are chief executive officers of their own organization.

AMET works closely and cohesively with the global shipping industry and aligns its objectives regularly to suit the demands of the evolution in technology. Such alignment keeps the students updated and industry-ready. With a consistent placement record AMET has been recognized as a premier institution for marine and marine related jobs and has earned a position as a trustworthy consultants for research and development projects wherein the investment are worth to the tune of several crores of rupees. Adducing to this achievements are the awards and accolades garnered by AMET for a range of activities in pursuit of excellence over the last two decades in maritime education, training, research and development.

AMET commitment to cater for the maritime capacity building has no bounds. AMET's strong hold as an institution for quality, discipline and rigor has drawn the attention of several growing maritime nations. To name a few are Republic of Nigeria, Angola and Djibouti that has signed a long term memorandum of understanding with AMET for

developing their nation's maritime human resource in particular and maritime infrastructure in general. Nigerian Maritime safety authority (NIMASA) which is the supreme authority for maritime administration in Nigeria, has got over 500 cadets trained through AMET over the last five years. AMET is a host to over 400 international students hailing from more than 10 countries across the world, thus providing and proving itself as a culturally diverse destination with a pledge to "Respect Diversity" and to promote cross cultural understanding which is the most essential quality for working in global environment.

AMET has a very ambitious vision 2025 plan wherein it aims to be a one stop solution for all marine related activities happening around the world and has clearly charted out an action plan to gauge its growth towards its 2025 milestone. The dogged perseverance of AMET's unmatched faculty gears up the student to meet the challenges of their life and career with tenacity of mind, endeavour to face them and emerge victorious. With a synergistic attitude prevailing among management, staff and student, AMET is all set to achieve and sustain a status par excellence.

Vision, Mission, Quality Policy, Reorganization and Accreditation

- Certificate Course in Tally for empowering economically poor rural women
- Certificate Course in Digital Photo Editing for empowering economically poor rural women

Other Programmes

- Pre Sea Training for Graduate Mechanical Engineers
- Pre-Sea GP Rating (6 Months)
- Pre Sea Modular Programmes
- Global Maritime Distress and Safety Systems (GMDSS)
- Electro Technical Officer Programme

Centre of Excellence in Collaboration with Industries Programmes

- On Board Ship Automation by CDCE School of Automation and robotics in association with Ministry of Micro, Small and Medium Enterprises, Govt. Of India
- Innovation in robotics and artificial intelligence Electronics Platform Research (EPR) Lab

Value Added Programmes

- Basic Safety Training (BST)
- Security Training for Sea Farers with Designated Security Duties (STSDSD)
- High Voltage Operational Level
- Engine Room Simulator Course
- Wellness at Sea

- Specialized Welding
- Electrical Machines and Control
- Data Analytics with Python
- Computer Aided Design with CREO
- Computer Numerical Control Programming for Turning and Milling
- Latest Technology on Raspberry pi with IOT using Python
- Data Analytics with Python
- Solar Based Renewable Energy Technology
- On-Board Ship Automation
- Product Development and Basic Robotics using MCU
- Robotics & its application
- Branding and Marketing
- FoSTAC
- ISO 22000-2018 and HACCP
- EXIM Trade and Customs Documentation
- Export procedure and ICEGATE Training
- Customs and ICEGATE Training
- EXIM Trade
- Customs Procedure and Operations

Community College Programmes

- Marine Structural Welding SMAW-4G (CS)
- Marine Structural Welding GTAW & GMAW (CS, SS & AL)
- Automatic Structural Welding GMAW-3G (CS)
- Marine Pipe Welding SMAW-6G (CS)
- Marine Pipe Welding GTAW+SMAW-6G(CS)
- Marine Pipe Welding GTAW-6G (SS & ALLOYS)
- Marine Pipe Welding GTAW+SMAW-6GR(CS)
- International Welder Diploma (Approved by International Institute of Welding)
- International Welding Specialist Diploma (Approved by International Institute of Welding)
- International Diploma in Welding
- International Diploma in Welding Technology
- Underwater Welding Diploma

- Marine Structural Steel Fitter
- Marine Pipe Fitter & Fabricator

RESEARCH AND DEVELOPMENT ODYSSEY

RESEARCH AND DEVELOPMENT ODYSSEY

Research and Development is an integral part of the activities of AMET University. This activity is one of the wings of the Institute which facilitates, channelizes, records, and regulates all the academic, sponsored, collaborative research projects and consultancy works in the Institute. In a world increasingly propelled by technology, academic research forms the mainspring of a nation's economic growth. AMET aspires to transform the lives of young budding engineers through their innovative ideas to contribute for research at academic level. AMET is closely working with core industries to train the students in this direction. This objective will be very close to the heart of the industry in the direction of producing ready to be employed engineers. The key goal of the Institute is to provide a creative atmosphere in which higher studies and research thrive amongst the faculty and students. It also promotes and manages Institute-Industry interaction.

All disciplines of the AMET would be engaged in R&D and consultancy activities. The R&D cell of this University would be active in registering for patents, copyrights, publications in conferences, organizing conferences, seminars and workshops. Faculty and students have been encouraged to be creative, since it is the creative aspect that induces newer thinking. Lectures and Demonstrations are made both for students and faculty to kindle their spirit of creativity both by our own faculty and from experts. The management, knowing the importance of R&D has been magnanimous to sanction necessary funds for Research and Development.

The University is engaged in pursuing Quality Research in Maritime Emerging Areas. The following are the few areas,

- Maritime Education, Ship Design, Marine Pollution, Maritime Security
- Climate Change, Vessel Traffic Management, Ocean Acidification
- Coastal / Marine Management, Inland Water Studies, Estuarine Studies
- Maritime Policies, Shipping & Logistics Management, Maritime Law
- Marine Insurance, Maritime Fleet Operations, Oil & Gas, Wave Energy
- Marine Human Resource Management, Offshore Wind Energy
- Port Safety and Waste Management, Coastal Hazards, Disaster Mitigation

- Oil Pollution and Oil Slick, Marine Navigation, Cargo Handling
- Material and Invasive Species, Bio fouling, Maritime Ecology,
- EXIM Studies, Maritime Boundaries, Maritime Terrorism and Piracy
- Deep Sea Mining, Health and Environment, Chemical Dispersion etc...

PH.D DEGREE AWARDED LIST

2018-19

Sl.No	Name	Title of the Thesis
1	Mr. PRAVIN S SHINDE	STUDY OF CARBON SEQUESTRATION IN MANGROVE HABITATS OF MUMBAI REGION
2	Ms. PHILCY PHILIP	FACTORS INFLUENCING EMPLOYEE ENGAGEMENT AND ITS IMPACT ON THREE COMPONENTS OF ORGANIZATIONAL COMMITMENT IN IT ORGANIZATIONS, BENGALURU
3	Ms. SURYA SARAH ISSAC	FACTORS INFLUENCING JOB SATISFACTION AND WORK PERFORMANCE AMONGST HIGH SCHOOL TEACHERS IN BENGALURU
4	Mr.R.G.RANGASAMY	QUALITY MANAGEMENT FOR TECHNOLOGICALLY SOPHISTICATED MEGA POWER PROJECTS IN CORROSIVE COASTAL ENVIRONMENT-A CASE STUDY OF NUCLEAR INDUSTRY
5	Mr. K. VIMAL KUMAR STEPHEN	OPTIMIZED ENERGY AWARE SECURE VIRTUAL BACKBONE USING MOBILE SINKS FOR WIRELESS SENSOR NETWORK
6	Mr. ABDUL KHADER .A.A	LEARNING MANAGEMENT OF BASIC CONCEPTS IN ENGINEERING DRAWING THROUGH KNOWLEDGE BASED TUTORING SYSTEM
7	Mr. JULIYAS AUGUSTINE PRINCE M	EVALUATION OF ENHANCED OIL RECOVERY SURFACTANTS ON LIMESTONE RESERVOIRS AND ITS APPLICATIONS
8	Mr.PRAKASH I N	RESOURCE SHARING AND NETWORKING OF LIBRARIES AMONG MANAGEMENT INSTITUTIONS IN BANGALORE: A STUDY
9	Mr.JAYARAMAN KANNAPPAN	SYNTHESIS, STUDY AND APPLICATIONS OF CAMPHOR BASED MOLECULES IN ORGANIC TRANSFORMATIONS

Research funds sanctioned and received from various agencies, industry and other organisations

Nature of the Project	Name of the funding Agency	Total grant sanctioned
Major projects		
Coral recruits site suitability model with respect to calcareous algal diversity in Palk Bay, India	DST - Science & Engineering Research Board, India	25.08
Numerical modeling on hydrodynamic stability analysis of tidal inlet	Ministry of Earth Sciences	21.79
Self-generation of methanol for biodiesel production by Visible light photoreduction of CO ₂ using quantum dot-core shell nanostructures.	CSIR	17
An Ecofriendly Technology For the Enhancement of Rheological and Filtration Properties of Water Based Drilling Mud	SERB	22.121
Modelling of non linear convection diffusion process in Hydrodynamic electrodes	DST SERB	13.3295
Industry sponsored Projects		
To develop a software for stiffened plate analysis of ship panels	Terran Engineering Solutions PVT LTD	0.5
Design of a low wash craft for inland water way applications	Terran Engineering Solutions PVT LTD	0.5
Development of bioinoculants for agriculture applications - Bioprospecting of IAA producing Rhizobacteria.	Sun Agro Biotech Research Centre, Chennai	0.68
Synthesis of Novel Chiral Auxiliaries for the Asymmetric Diel-Alder Reaction	Jayagen Biologics	0.5
Synthesis and Characterization of ZnO/cOs nano structures for Photovoltaic application	Sastha industries	0.3
Hydrodynamic modelling of scour around oscillating water column (OWC) wave power caisson breakwater due to regular waves	Suvedhas Constructions	0.45

Corporate Social Responsibility(CSR) IN Shipping Companies- An Empirical Study	DK International	0.5
Cruise Tourism in Chennai-A Feasibility Report	Vee Eee Technoligies Pvt Ltd	0.5
Impact of Goods and Services Tax (GST)on the Shipping Industry in India	PS Shipping Services, Chennai	0.5
A Study on the Illegal Fishing Methods and its Impact on the Fishing Community in Tamil Nadu with special reference to East Coast Side from Chennai to Kovalam	Unique lines	0.4
Corporate Social Responsibility(CSR) IN Shipping Companies- An Empirical Study	DK International Research Foundation	0.5
Hydrodynamic Modelling of Scour around Oscillating Water Column (OEC)Wave Power Caisson Breakwater due to regular waves	Suvetha constructions	0.45
Design of a low wash craft for inland water way applications	Terran Engineering	0.25
FPGA Based Closed Loop V/F Control of Three Phase Induction Motor	Lamda Instrument Pvt Ltd	0.5
Developemnt of QCM Instrucment for the detection of pollutuion in Drinking water	New Venus Industries Pvt Ltd	0.4
Solar Enery -Efficient Motor Drive with Flywheel Energy Storage Syatem(FESS)Based on Multilevel inverters	Lamda Instrument Pvt Ltd	0.8
Synthesis and Characterization of ZnO/COs nanostructures for Photovoltaic application	Sastha Industries	0.3
Synthesis of Novel Green Chiral Auxiliaries for the Asymmetric Diels-Alder Reaction	Futura Polyster	0.5
Bioprospecting of endophytic and rhizospheric bacteria associated with coastal sand dune plants in the East Coast of Tamil Nadu for Agricultural applications	Sun Agro	0.75

Experimental Investigation of enriched oxygen in diesel engine	Siva Enterprises	1.3
Experimental Investigation on machining characteristics of glass fibre reinforced plastics(GFRP)	KA Tools	0.3
Investigations on fracture behavior of friction welded aluminum-magnesium	KA Tools	0.3
Experimental Investigation and optimization on water jet peening in AL6061-T6	KA Tools	0.3
Experimental Investigation on performance of vapour compression refrigeration system with nano refrigerants	Thermo Fabs	0.4
Experimental Investigation of exhaust system to reduce diesel engine emission by scr coated diesel particle filter in CI engine	Thermo Fabs	0.4
Development of Nutrients enriched noodles by fortification of underutilized millets	Organic foods	0.75
To develop software for stiffend plate analysis of ship panesls	Terran Engineering	0.5

Workshops/Seminars Conducted on Intellectual Property Rights (IPR) and Industry-Academia Innovative practices

Title of Workshop/Seminar
Naval Architecture and offshore Engineering Department
AMET-MTS Student Seminar
International Technical Symposium
FRP Boat Building
Entrepreneurship
Wind Turbine: it's evolution in Engineering
Ship construction software & its application
TQM & its application in production
Marine Biotechnology Department
National Science Day celebrations on Modern Sciences for school students
National seminar on scientific issues for the development of the Nation
Electrical and Electronics Engineering Department
Seminar on Renewable Energy Sources and Solar Energy Storage System
Workshop on Machine Learning using Python
National Seminar on Electric and Hybrid Electric Vehicles
Workshop on Implementation of Outcome Based Education
Workshop on Ethical Hacking and Cyber Security

Workshop on Simulation of Power System Transients in modern grids
Workshop on Outcome Based Education for NBA Accreditation Process
Workshop on Hands-on Training on Printed Circuit Board Design
Workshop on Hands-on Training on Internet of Things using Raspberry Pi
Workshop on Hands-on Training on BIPED Walking Robot for Industrial Application
National Seminar on Analysis of Transients in Power System using Electromagnetic Transient Program (EMTP-RV)
International Conference on Innovation and Research in Marine Electrical and Electronics Engineering (ICIRMElectrical and Electronics Engineering)-2018
Physics Department
Photocatalytic Technology and Innovation
Harbour and Ocean Engineering Department
International Conference on Environmental Impacts of Ship Recycling and Remedial Measures, 10-11 September 2018
NBC-2016 -OVERVIEW, A Guest Lecture by Mrs.V.Jyothi, from M.N.Dastur, Chennai.
Introduction of Jan De Nul Group & Rock Dredging Projects at VOC Port, Tuticorin by Jan De Nul. A Guest Lecture by Mr.Janakraj Thomas, Advisor, Jan De Nul, Chennai
Maritime Commerce Department

Celebrations at AMET

Celebrations at AMET

There are many important things in life. Learning, growing, loving, and exploring are all things that each person should take time for. Celebration is another thing that everyone should take time for. Celebration adds an excitement and a lot of fun to life. Festivals is a celebration of life. These celebrations bring peace and joy to the humanity and break the monotony of life. Festivals are numerous in our country. We can divide festivals into three kinds; National, Religious and Sensational. There are many important things in life. Learning, growing, loving, and exploring are all things that each person should take time for.

Celebration is another thing that everyone should take time for. Celebration adds an excitement and a lot of fun to life. Celebration can happen for a variety of formal or informal reasons. There is something deep inside humanity that loves to celebrate the best things in life. Celebrations of all kinds give us the excitement to keep making it through days that seem purposeless. Have you ever felt like life was a little too routine? I'm confident that by the time the next holiday or birthday celebration rolled around you were grateful for the change of pace. People in our country love celebrating the festivals with their near and dear ones. Each Indian festival has its own unique way of celebration and people follow the tradition while celebrating the same.

Celebration allows us to relax and unwind in the midst of busy and crazy lives. We use celebrations as an excuse to gather with the friends and family that mean that most to us. We also enjoy celebrations because they allow us to remember the things in life that truly matter. As we celebrate, we allow the stresses of life to fall behind and we spend our time doing things we love with the people we love. People of India also hold great regard for the National festivals of the country.

Gandhi Jayanti, Independence Day and Republic Day are the three national festivals of our country. These festivals are a symbol of unity and progress. They remind us of our patriotic leaders who served the country selflessly. National festivals are celebrated with equal zeal. The entire atmosphere is filled with the feeling of patriotism during these festivals. There is something about a great celebration that

reminds us of the purpose of our life and of the power of our closest relationships. Perhaps the best thing about celebration of any kind is that it makes our lives richer and more meaningful. The National, Religious and Sensational festivals are celebrated in Our University with great honour.

Teaching Beyond the Classroom

TEACHING BEYOND THE CLASSROOM

Teaching and learning can become inherently spontaneous and student-centred when moved from the confines of the classroom into the world at large. From the collaborative learning atmosphere that results from the unique relationships developed outside the classroom, to the deep learning that occurs when students must put into practice “in the real world” what they have theorized about from behind a desk, field experiences are unmatched in their learning potential. Field experiences early in a student’s career can be formative and can inspire students to continue in a field.

Learning experiences outside the classroom are inherently interdisciplinary. When we go out into the world, we encounter it as a whole and are forced to engage multiple modalities, no matter which pair of disciplinary “lenses” we intended to wear. Therefore, scientists and humanists alike do well to consider the ways in which other disciplines might enrich their own disciplinary approach to their field.

One way to escape the confines of the classroom and to afford students opportunities to grow is to encourage students to learn from and to serve the surrounding community. In its simplest form, this may involve field trips into a community where students will have occasions to have discussions with community members or local experts on an issue related to course content. Even greater learning potentials and community benefits rest in more intensive forms of community engagement in the form of service learning projects. These projects, typically designed by both faculty and community partners, allow for students to learn in highly effective ways while helping a community address its needs.

In all of these experiences, student growth can be extensive, whether it is through improved critical thinking and problem solving skills, greater personal efficacy and leadership development, or enhanced social responsibility and career opportunities

CLUB ACTIVITIES DESIGNED TO EXTEND LEARNING

CLUB ACTIVITIES DESIGNED TO EXTEND LEARNING

Clubs and Activities Are Important, Too College life is busy. Students are up early to get into classes on time, to maths, physics, chemistry and other classes, and have homework to do. So, it is important to participate in extracurricular clubs, sports, or community groups. Recruiters look at the things students do after college hours like participating in sports clubs or teams, or community volunteer work. No doubt about it, maintaining good grades is important for getting into company.

In Our University we lay due emphasis on different activities through active participation in various social, athletic and artistic clubs and societies. We guide students to discover and create their own understanding. Besides academics, co scholastic activities form an integral part of the curriculum. This aspect includes wide range of co-curricular activities. All the students are obliged to gain practical experience in the course of their academic education.

The concept of Clubs is seen as an opportunity for adaptation to life in the group, forming good life long habits and cultivating a voluntarist spirit. Club activities supplement academics and give the students practical training which they require in day to day life. In order to fully develop the whole person, all students are required to participate in either a yearlong club or seasonal sport. It is our philosophy that such participation is vital in developing well-rounded students, broadening student interests, and encouraging a strong ownership of AMET.

In the competitive world, companies are now looking for students who show participation in activities beyond the classroom. In order for a yearlong activity to be counted for a student's participation requirement, the club or activity must either be academic, competitive or service oriented. A strong commitment is required. In Our University various club activities are organized giving an opportunity to the students to display their talent.

INDUSTRY-ACADEMIA CONNECT

INDUSTRY-ACADEMIA CONNECT

With the advent of globalization and opening up of Indian economy to outside world, competition among industries has become stiff. To solve their engineering problems they look up now to engineering institutions. Similarly, there is an urgent need to prepare engineering students for jobs in multinational companies, by exposing them to newer technologies and engineering methodologies. These objectives can only be achieved well by bridging the gap between industry and the academic institutions. Better interaction between technical institutions and industry is the need of the hour. This will have great bearing on the engineering curriculum, exposure of engineering students to industrial atmosphere and subsequent placement of young graduating engineers in industries across the country.

Industries and institutes have been collaborating for over a century, but the rise of a global knowledge economy has intensified the need for strategic partnerships. The Institutes are imparting the basic knowledge and skill, but the Industry-Institute Interaction will enable to undertake research by staff and students relevant to the industry.

The Industry-Institute Interaction should be designed to run longer period for preparing the manpower of world class in the field of science and technology by inculcating the various skills required by the industry, thereby contributing to the economic and social development at large. With several layers of collaboration being built by the government to develop the Make in India program, the manpower needs have to be fulfilled in order to witness the required development.

Though availability of manpower is abundant in India, well equipped manpower with employability skills is the need of the hour. There is a need to create avenues for a close academia and industry interaction through all the phases of technology development, starting from conceptualizing to commercialization. AMET has crafted a unique Industry-Institution Interaction initiative as one of its core pillars.

Conclusion

AMET University Annual Activity Report 2018-19 was characterized by unparalleled challenges and extraordinary opportunities. It was a year of significant achievements even in the midst of declining resources. In these uncertain times, as conditions continue to evolve in unexpected ways, Our University will continue to strive for excellence while also becoming more agile as a world class University, balancing its historical responsibilities while continuing to forge new directions by conducting more than 200 academic related activities.

AMET University can be justifiably proud of the achievements of our students academically, culturally, and on the sports field. We as a University will continue to strive to best serve the students, including targeting areas where achievement isn't as high as it could be. Further developing support for achievement and students literacy has already yielded positive results and we hope to continue this trend in the forthcoming academic year 2019-20.
